## TRADITIONS, SPORT AND CULTURE

First written document mentioning Olomouc dates from 1055. As for its history and importance in the past, Olomouc can be compared only to Prague. It is the best-preserved historical city of Moravia, having the second largest urban reservation area, next to Prague. Beside a vast complex of historical buildings and monuments noted for their architectural and cultural values, a well-preserved pattern of medieval streets is protected, too. The city centre boasts a unique piece of monumental baroque sculpture and architecture – the Holy Trinity Column. In 2000, the Column appeared on the UNESCO World Cultural Heritage List, being the 10th Czech monument to be honoured this way. Started by Václav Render, the tallest baroque sculptural group in Central Europe was finished by his successors. 35 meters high, the marvellous gallery of sculptures was constructed in 1716-54 and subsequently consecrated by Cardinal Troyer in the presence of the Empress Mary Theresa.

The impact of the Roman-Catholic Church on the city life and its spiritual, political and economic development has always been immense. The Bishopric of Olomouc was founded as early as 1063 and the importance of the city grew after it was promoted to the Archbishopric in the 18th century. Numerous church buildings and monuments that attract thousands of tourists and visitors every year are a proof of this fact. Even today Olomouc is a religious centre of Moravia. During his visit in 1995 The Pope John Paul II promoted the Church of the Visitation at Svatý Kopeček to the rank of Basilica Minor.

Olomouc has always been an important centre of learning and culture in Moravia. Many excellent artists and composers visited the city, including W.A.Mozart and Gustav Mahler. The Moravian Theatre has four ensembles: of drama, opera, operetta and ballet. Best organists from all quarters of the world can rise to the occasion at an annual International Organ Festival: concerts take place at St.Maurice´ s Church where the largest baroque organ by M.Engler survived to our days. Beside, Olomouc is a home of the Moravian Philharmonic Orchestra, Museum of Regional History, Musical Theatre, Museum of Arts, numerous choirs, chamber orchestras and bands, and many small galleries. The above-mentioned institutions prepare a wide range of cultural events every year.

The City of Olomouc is an important sports centre. Thanks to first-league football, handball and basketball teams, local fans can enjoy extraordinary experiences. The whole Region offers a wide range of leisure-time activities from tennis, bowling, squash and mini-golf, to fitness centres, to biking and horse riding. In Olomouc, a football stadium, ice-hockey arena, swimming pool, sports hall and tennis courts are situated in an immediate neighbouring of the City centre. Together, they form a vast sports complex that offers enjoyment to everyone who is fond of sport. Beside familiar facilities (fitness centres, squash courts, bowling and ninepin alleys) a visitor can find here an exceptional facility – an outdoor climbing rope playground. The Olomouc ZOO, hosting more than 200 animal species, is located in splendid surroundings of Svatý Kopeček. Visitors can stroll among rhesus monkeys running at large in a newly built monkey safari. Those who like playing golf can visit Dolany-Véska, about 10 km from Olomouc. Here, in a picturesque hilly landscape, a first part of an 18-hole golf course has been recently opened to the public (see: www.golf-olomouc.cz).

The Olomouc Region has a beautiful countryside. Its protection and environmental planning has been emphasised in last years. The area where the Jeseniky foothills merge into the plain of the River Morava offers wonderful leisure-time opportunities. Forty-seven hectares of green parks, a real treasure of the City, encircle the historical centre of Olomouc. International flower exhibitions (FLORA) take place there every year. The “Litovelské Pomoraví” National Reserve – 9,600 hectares of floodplain forests – lies nearby. Though not too vast, it is famous for its unique nature and a good state of preservation. The Park was entered into an international list of protected fenlands. It is interwoven with cycling routes that will soon become a part of proposed trans-Moravian

Route running alongside the River Morava and connecting Moravia to the Danubian Route in Austria.

A visitor can see this and much more during a sightseeing flight: planes start from the Olomouc airfield. As for the city itself, it offers a wide range of stylish restaurants, discotheques, night clubs, music clubs and hotels where every guest will find a home from home.

## TOURISM

Olomouc is one of the largest and richest urban conservation areas in the Czech Republic. This is the reason why tourists coming to the city are attracted particularly by the historical centre and its monuments.

## CONDITIONS FOR ENTREPRENEURIAL DEVELOPMENT IN THE CITY OF OLOMOUC

- A strategic location in the middle of Moravia, the obvious transport and administrative centre of the region, significant transport crossroads;
- Historical importance, tradition and cultural life of the city connected with the renovation of cultural monuments are the incentive for further development in travel tourism;
- High quality of the environment and an attractive landscape connected with sport events are an important precondition for a healthy life and recreation activities;
- Prominent role of professional training, foreign languages institutions, and Palacký University guarantee a high level education, diversified and skilled workforce;
- Long-time tradition and high level of food-processing and engineering create a basis for further development of affiliated branches of industry;
- Dynamic development of entrepreneurial subjects draws from traditions and background of experienced building companies;
- Well-prepared industrial zones attract foreign investors and small and medium-sized local enterprises, for whom the Scientific and Technological Park of Palacký University was developed, as well;
- Massive boom of services and retail trade is a promise for the future.

# city profile

# Basic data and information

The City of Olomouc (100.752 inhabitants) is one of the most important Czech cities. Thanks to its history, the ancient University, sophisticated culture and arts, as well as its geographic position in the very centre of Moravia, it has always attracted tourists, businessmen and entrepreneurs. From the economic point of view, the City of Olomouc is an industrial city with developing services. Its growth potential is vast due to its advantageous position, a long tradition of manufacturing and skilled workforce.

In January 2001, the City of Olomouc became the centre of the Olomouc Region and also the seat of the Regional Authority of the Olomouc Region. Consisting of five districts (Olomouc, Prostějov, Přerov, Šumperk and Jeseník), the Olomouc Region is the eighth largest and sixth most populated of 14 Czech regions. According to the EU request, the Olomouc Region joined with the Zlín Region into a so-called Nomenclature Unit of Territorial Statistics NUTS II – Central Moravia. Such units can get grants and subsidies from the EU sources.

## LOCATION

The city of Olomouc lies in the valley of the Morava river. Elevated geographical features in the west and, mainly, in the east form the boundary of lowland surrounding the city. The city itself is thus closed in a drawn-out depression opened to the northwest and to the southeast. The local climate is moderate.

- Area: 10 336 ha (25 540 acres)
- 49 ° 45 ´ northern latitude
- 17 ° 15 ´ eastern longitude
- Elevation 219 meters above sea-level in the city centre

## EDUCATION

Olomouc is a home to the ancient Palacký University and twenty-two secondary schools of different kinds. Founded as early as 1573, the University has currently seven faculties and more than 16 thousand students. It is one of the most important Czech universities and the biggest educational institution of the Central Moravia NUTS II Region. Experts from abroad lecture European Law at the Department of European Law established by the EU at the University's Faculty of Law. Research activities of the University, its contacts in abroad and participation in international projects raise hopes that a major international research centre might emerge in Olomouc. A project of a scientific park launched in June 2001 is an important step in this direction. The park called “The Centre for Innovations and Transfer of Technologies” is aimed at helping newly established companies focused on biotechnology and optoelectronics.

A regional level of education is above a national average, which makes a promising outlook for the future development of the Region. There are two elementary schools with extended language curricula in Olomouc and 3 bilingual secondary schools as well. Starting from 2005, recently established private school „Moravská vysoká škola Olomouc“ offers new educational opportunities for baccalaurate studies in field of economics, management and IT.

Thanks to its University and a dense network of elementary and secondary schools, the City of Olomouc plays a role of a major centre of education whose importance reaches far beyond borders of the Region.

## TRANSPORT

Due to its inland location, Olomouc´s outer transport link is excellent. After the D11 motorway and the R35 expressway have been completed, the significance of the city will increase as it is located on the crossroads of two key domestic and international roads.

The international road No.E462 provides a north-south link between Poland, Moravia and Austria. By connecting the R46 expressway to the D1 motorway at Vyškov, a comfort link with Brno is ensured with a further link with Prague (via D1 motorway) and Bratislava (via D2 motorway). Important local motorways run through the area, as well (i.e. No. I/55 to Přerov and No. I/46 to Šternberk). The southern expressway bypass No. R35 is opened since October 2003.

Olomouc is also an important railway junction with the Central Station being located near the city centre. A Passengers Centre (CD CENTRUM) at the Central station offers high-grade service to its customers. Five railway lines go through the city, including the main line to Prague.

#### MAJOR RAILWAY LINES

No. 270 to Přerov
No. 270 to Zábřeh
No. 310 to Krnov
No. 332 to Nezamyslice
No. 229 to Šumperk

#### AN INTEGRATED SYSTEM OF PUBLIC TRANSPORT

operates in the city, including trams, busses and low-rise busses for the disabled. Operators: Dopravní podnik města Olomouce a.s., Connex Morava a.s.

#### AIR TRANSPORT

An international airfield for airplanes, gliders, helicopters, ultra-lights, balloons and airships is located 3.8 km to the west of the city centre. The airfield is operated by the Municipality. Its technical parameters are limited (a 1000-meter take-off strip with grassy surface).

## TECHNICAL INFRASTRUCTURE

**DRINKING WATER** is supplied by water distribution system from the underground sources of the Olomouc group water main. The water supplier and operator is STŘEDOMORAVSKÁ VODARENSKÁ a.s., Tovární 41, Olomouc, tel.: (+420) 585 536 111.

**SEWAGE** water is conducted through a unified sewerage system to the municipal sewage treatment plant that has recently been reconstructed and meets the technical and capacity requirements for treatment. The sewage treatment plant and the sewerage system are operated by Stredomoravska vodarenska a.s., Olomouc.

STŘEDOMORAVSKÁ VODARENSKÁ a.s., Tovární 41, Olomouc, tel.: (+420) 585 536 111.

**ELECTRIC POWER** is distributed via a high-voltage and low-voltage network. The electric power supplier is SEVEROMORAVSKÁ ENERGETIKA a.s., Regional division, nábřeží Dr. Edvarda Beneše 20 Přerov, tel.: (+420) 581 264 111.

In 2003 a new distribution point R110/22 kV “Příkopy” for strengthening of developing localities is being completed.

**HEAT** is produced in a coal heating plant and a top-class black oil and natural gas heating plant. The heating plant has been reconstructed and it meets, with a reserve, the requirements of the environment protection law. The heat is supplied by a system of heat and steam ducts. The heat supplier is DALKIA ČESKÁ REPUBLIKA Tovární 44, Olomouc, tel.: (+420) 585 529 111.

**NATURAL GAS** is distributed to customers via gas pipeline systems. Gas is supplied to all parts of the city. The gas supplier is SEVEROMORAVSKÁ PLYNÁRENSKÁ a.s. Ostrava, Regional Centre Olomouc, Wittgensteinova 6, tel.: (+420) 585 644 111.

#### TELECOMMUNICATIONS

The largest provider of telecommunication services in the Czech Republic via fixed phone network is CESKY TELECOM a.s., Mlynska 12, 702 22 Ostrava, service centre: 800 123 456.

Olomouc is a seat of the nodal and transite telephone areas. Aliatel, Contactel, eTel, GTS Novera and InWay are further fixed network providers.

#### PUBLIC MOBILE PHONE NETWORK PROVIDERS ARE AS FOLLOWS:

- EUROTEL PRAHA s.r.o., infoline: 800 330 011
- T-Mobile Czech Republic a.s., infoline: 603 603 603
- Oskar mobil a.s., infoline: 800 777 777.
