TRADITIONS, CULTURE, SPORT

First written document mentioning Olomouc dates from 1055. As for its history and importance in the past, Olomouc can be compared only to Prague. It is the bestpreserved historical city of Moravia, having the second largest urban reservation area, next to Prague. Beside a vast complex of historical buildings and monuments noted for their architectural and cultural values, a well-preserved pattern of medieval streets is protected, too. The city centre boasts a unique piece of monumental baroque sculpture and architecture – the Holy Trinity Column. In 2000, the Column appeared on the UNESCO World Cultural Heritage List, being the tenth Czech monument to be honoured this way. Started by Václav Render, the tallest baroque sculptural group in Central Europe was finished by his successors. 35 meters high, the marvellous gallery of sculptures was constructed in 1716 – 1954 and subsequently consecrated by Cardinal Troyer in the presence of the Empress Mary Theresa.

The impact of the Roman-Catholic Church on the city life and its spiritual, political and economic development has always been immense. The Bishopric of Olomouc was founded as early as 1063 and the importance of the city grew after it was promoted to the Archbishopric in the 18th century. Numerous church buildings and monuments that attract thousands of tourists and visitors every year are a proof of this fact. Even today Olomouc is a religious centre of Moravia. During his visit in 1995 The Pope John Paul II. promoted the Church of the Visitation at Svatý Kopeček to the rank of Basilica Minor.

Olomouc has always been an important centre of learning and culture in Moravia. Many excellent artists and composers visited the city, including W. A. Mozart and Gustav Mahler. The Moravian Theatre has four ensembles: of drama, opera, operetta and ballet. Best organists from all quarters of the world can rise to the occasion at an annual International Organ Festival: concerts take place at St. Maurice's Church where the largest baroque organ by M. Engler survived to our days. Beside, Olomouc is a home of the Moravian Philharmonic Orchestra, Museum of Regional History, Musical Theatre, Museum of Arts, numerous choirs, chamber orchestras and bands, and many small galleries. An Archdiocese Museum was opened in 2006. The abovementioned institutions prepare a wide range of cultural events every year.

The City of Olomouc is an important sports centre. Thanks to first-league football, handball and basketball teams, local fans can enjoy extraordinary experiences. The whole Region offers a wide range of leisure-time activities from tennis, bowling, squash and mini-golf, to fitness centres, biking and horse riding. In Olomouc, a football stadium, ice-hockey arena, swimming pool, sports hall and tennis courts are situated in an immediate neighbouring of the City centre. Together, they form a vast sports complex that offers enjoyment to everyone who is fond of sport. Beside familiar facilities (fitness centres, squash courts, bowling and ninepin alleys) a visitor can find here an exceptional facility - an outdoor climbing rope playground. The Olomouc ZOO, hosting more than 200 animal species, is located in splendid surroundings of Svatý Kopeček. Visitors can stroll among rhesus monkeys running at large in a newly built monkey safari. Those who like playing golf can visit Dolany-Véska, about 10 km from Olomouc. Here, in a picturesque hilly landscape, a first part of an 18-hole golf course has been recently opened to the public (see www.golf-olomouc.cz).

The Olomouc Region has a beautiful countryside. Its protection and environmental planning has been emphasised in last years. The area where the Jeseníky foothills merge into the plain of the River Morava offers wonderful leisure-time opportunities. Forty-seven hectares of green parks, a real treasure of the City, encircle the historical centre f Olomouc. International flower exhibitions FLORA take place there every year. The Litovelské Pomoraví National Reserve – 9 600 hectares of floodplain forests - lies nearby. Though not too vast, it is famous for its unique nature and a good

state of preservation. The Park was entered into an international list of protected fenlands. It is interwoven with cycling routes that will soon become a part of proposed Trans-Moravian Route running alongside the River Morava and connecting Moravia to the Danubian Route in Austria.

A visitor can see this and much more during a sightseeing flight – planes start from the Olomouc airfield. As for the city itself, it offers a wide range of stylish restaurants, discotheques, night clubs, music clubs and hotels where every guest will find a home from home.

TOURISM

Olomouc is one of the largest and richest urban conservation areas in the Czech Republic. This is the reason why tourists coming to the city are attracted particularly by the historical centre and its monuments.

CONTACTS

& DEVELOPMENT

The City of Olomouc (100 381 inhabitants) is one of the most important Czech cities.

Basic data and information

Thanks to its history, the ancient university, sophisticated culture and arts, as well as its geographic position in the very centre of Moravia, it has always attracted tourists, businessmen and entrepreneurs. From the economic point of view, the City of Olomouc is an industrial city with developing services. Its growth potential is vast due to its advantageous position, a long tradition of manufacturing and skilled workforce.

In January 2001, the City of Olomouc became the centre of the Olomouc Region and also the seat of the Regional Authority of the Olomouc Region. Consisting of five districts (Olomouc, Prostějov, Přerov, Šumperk and Jeseník), the Olomouc Region is the eighth largest and sixth most populated of 14 Czech regions. According to the EU request, the Olomouc Region joined with the Zlín Region into a so-called Nomenclature of Units for Territorial Statistics NUTS II – Central Moravia. Such units can get grants and subsidies from the EU sources.

LOCATION

The city of Olomouc lies in the valley of the Morava river. Elevated geographical features in the west and, mainly, in the east form the boundary of lowland surrounding the city. The city itself is thus closed in a drawn-out depression opened to the northwest and to the southeast. The local climate is moderate.

- Area of Olomouc 10 333 ha (25 533 acres)
- City centre 49°45′ northern latitude, 17°15′ eastern longitude
- Elevation 219 meters above sea-level in the city centre

EDUCATION

Olomouc is a home to the ancient Palacký University and twenty-four secondary schools of different kinds. Founded as early as 1573, the University has currently seven faculties and more than 17,5 thousand students. It is one of the most important Czech universities and the biggest educational institution of the Central Moravia NUTS II Region. Experts from abroad lecture European Law at the Department of European Law established by the EU at the University's Faculty of Law. Research activities of the University, its contacts in abroad and participation in international projects raise hopes that a major international research centre might emerge in Olomouc. A project of a scientific park launched in June 2001 under the name The Centre for Innovations and Transfer of Technologies is an important step in this direction. The Scientific and Technological Park is aimed at helping newly established companies focused on biotechnology and optoelectronics.

A regional level of education is above a national average, which makes a promising outlook for the future development of the Region. There are 2 elementary schools with extended language curricula in Olomouc and 3 bilingual secondary schools as well. Starting from 2005, recently established private school Moravská vysoká škola Olomouc offers new educational opportunities for baccalaureate studies in field of economics, management and IT. Moravská vysoká škola Olomouc also prepares a project of a regional innovative centre. Thanks to its university education and a dense network of elementary and secondary schools, the City of Olomouc plays a role of a major centre of education whose importance reaches far beyond borders of the Region.

TRANSPORT

Due to its inland location, Olomouc's outer transport link is excellent. After the D11 motorway and the R35 expressway have been completed, the significance of the city will increase as it is located on the crossroads of two key domestic and international roads.

The international road No. E462 provides a north-south link between Poland, Moravia and Austria. By connecting the R46 expressway to the D1 motorway at Vyškov, a comfort link with Brno is ensured with a further link with Prague (via D1 motorway) and Bratislava (via D2 motorway). Important local motorways run through the area, as well (i.e. No. I/55 to Přerov and No. I/46 to Šternberk). The southern expressway bypass No. R35 is opened from October 2003.

Olomouc is also an important railway junction with the Central Station being located near the city centre. A Passengers Centre (CD Centrum) at the Central Station offers high-grade service to its customers. Five railway lines go through the city, including the main line to Prague.

MAJOR RAILWAY LINES

- No. 270 to Přerov, Ostrava • No. 270 to Zábřeh, Praha • No. 290 to Šternberk, Šumperk
- No. 301 to Prostějov, Nezamyslice
- No. 310 to Krnov, Opava

AN INTEGRATED SYSTEM OF PUBLIC TRANSPORT

operates in the city, including trams, busses, incl. low-rise trams and busses for the disabled.

Operators: Dopravní podnik města Olomouce, a. s.

Connex Morava a. s.

TECHNICAL INFRASTRUCTURE

Drinking water is supplied by water distribution system from the underground sources of the Olomouc group water main. The water supplier and operator is STŘEDOMORAVSKÁ VODARENSKÁ, a. s., Tovární 41, Olomouc, tel: +420 585 536 111, email: smv@smv.cz.

Sewage water is conducted through a unified sewerage system to the municipal sewage treatment plant that has recently been reconstructed and meets the technical and capacity requirements for treatment. The sewage treatment plant and the sewerage system are operated by STŘEDOMORAVSKÁ VODARENSKÁ, a. s.

Electric power is distributed via a high-voltage and low-voltage network. ČEZ Distribuce, a. s. which provides distribution of electric power and ČEZ Prodej, s. r. o. which provides sale of electric power to end customers, Vinohradská 8/325, Praha, tel: +420 840 840 840, email: cez@cez.cz, are the electric power suppliers.

Heat is produced in a coal heating plant and a top-class black oil and natural gas heating plant. The heating plant has been reconstructed and it meets, with a reserve, the requirements of the environment protection law. The heat is supplied by a system of heat and steam ducts. The heat supplier is Dalkia Česká republika, a. s., branch Olomouc, Tovární 44, Olomouc, tel: +420 585 529 111, email: info@dalkia.cz.

NATURAL GAS

Natural gas is distributed to customers via gas pipeline systems. Gas is supplied to all parts of the city. The gas supplier is Severomoravská plynárenská, a. s., branch Olomouc, Wittgensteinova 6, Olomouc, tel: +420 840 111 115, email: info@rwe-smp.cz.

TELECOMMUNICATIONS

The largest provider of telecommunication services in the Czech Republic via fixed phone network is Telefónica O2 Czech Republic, a. s., Olšanská 55/5, Praha, which was built from ČESKÝ TELECOM, a. s., the biggest provider of telecommunication services via fixed phone network, and Eurotel Praha spol. s r. o., the biggest mobile operator, to a one telecommunication company. Infoline for companies: +420 800 203 203, for private households: +420 800 123 456.

Aliatel, Contactel, eTel, GTS Novera and InWay are further fixed network providers. Public mobile phone network providers are as follows:

- Telefónica O2 Czech Republic, a. s., infoline: +420 720 720 720
- T-Mobile Czech Republic a. s., infoline: +420 603 603 603
- Vodafone Czech Republic a. s., infoline: +420 800 777 777

ENTERPRISE

FOREIGN INVESTORS IN OLOMOUC

Foreign investors capitalise on well-prepared industrial zones. Two zones had been prepared after 1998. Currently they are completely built-up and used, mostly by investors from abroad. The City together with Palacký University prepare new industrial zone – an entrepreneurial and industrial park Šlechtitelů, covering an area of 16 hectares. Infrastructure of Šlechtitelů zone and Business Incubator will be finished in 2006. The City attracts big companies but also does its best to support small and medium-sized local enterprises and Scientific and Technological Park of Palacký University. In addition to new development zones, the City is planning to reconvert old unused "brownfield" areas. A project of conversion of Neředín Barracks has started.
